**Goals** My life goal is to find ways to surf daily in every ocean across the world.

I am an up and coming Central Coast goofy footer that can't spend enough time in the water. My serious commitment to competitive surfing began in Fall 2020 and I have achieved a lot in a short time. I am ready for sponsorship and I am looking for sponsors that supports the competitive and free surf lifestyle, nurturing creativity and supporting passion. VISSLA understands surf athletes and I would be proud to wear their equipment and apparel every day. This year my goal is to compete in WSA as well as NSSA and continue to grow in strength and skill.
